We are looking for a school district partner interested in training Solder Skills. We would provide some of the equipment and curriculum. Once the program is designed, up and running, we would consider direct hire of these kids out of the high school solder program.

Unemployed entry level applicants must apply through Adecco and complete a working interview to be eligible for direct hire consideration. Adecco Associates are paid \$11.00 an hour, same as entry level Plexus team members.

A clear detailed list of our current openings can be found at www.Plexus.com/Careers. More will be posted soon.
